## RELIEF WORKS IN PART OF THE SHAHABAD DISTRICT.

THE Lieutenant-Governor is pleased to direct the publication of the correspondence noted below for the information of local officers, and their attention is invited thereto.

No. 1035, dated Fort William, the 19th February 1874,

Memo. from—COLONEL J. E. T. NICOLS, R.E., Secretary to the Government of Bengal, Public Works Department,

To—The Offg. Secretary to the Government of Bengal, Sarcit, and Relief Dept.

THE undersigned has the honor to forward for information the annexed extract (paragraphs 7, 8, 13, 17, and 22) from a report of an inspection made by the Superintending

No. 801, dated the 14th instant.

Engineer of the Northern Circle, between the 7th and 13th instant, on Relief works in part of the Shahabad District.

*Extract from an Inspection Report No. 801, dated 14th February 1874, from the Superintending Engineer, Northern Circle, on Relief Works in part of the Shahabad District, between the 7th and 13th of February 1874.*

PARA. 7. I remarked in driving along the line the good effects of the measures taken by Baboo Teeluck Sing, a Rajpoot of Barji, in October last; the rubbee crops, as far as the eye

could reach on each side of the road, sealed in splendid ditches, the water was still flowing into the excavation along the road-side, and is being utilized in irrigation channels.

8. Mr. Moir, the Executive Engineer, informs me that the zemindar, at a cost of about Rs. 4,000, has succeeded in digging a tract of land on Mr. McNamara estimates at 30,000 beegahs, extending over several villages, and has entered into details of the great benefit conferred on the people by the work. Mr. Sing, a civil authority, has brought the matter to the notice of the civil authorities, but I am surprised that similar steps were not taken to utilize running streams of a similar nature to the Durgowty. The benefit to the country would have been enormous.

13. This very useful road has been repaired by Mr. Newland, of Mussahya, from district funds, at a cost of Rs. 10 a mile. It is raising here and there; and if it is considered hereafter that it should form a relief work, it should be continued from Bhugwanpore through Rajghat to open out the traffic from the plateau on the hills where a tract of land exists.

14. This is a country road, about 10 miles in length, skirting the foot of the hills and runs almost parallel to the line of the Main Western Canal about 1 mile to be carried out; it has been repaired by Mr. Newland, of Mussahya, and culverts have been constructed.

15. The road is in very good order, and appears to be a useful line of communication from the hills to Durgowty on the Grand Trunk Road; much traffic in lime, stone, hides, spices, rice, &c., passes along the line.

16. The above line passes near Chynepore, through which runs the road from Bhabooa. I would recommend that the Bhugwanpore road should be raised and re-aligned so as to meet the Bhabooa road which runs on to Hatta; this might be a relief work if required, but I imagine the canal works will absorb all the labor in the neighbourhood when it is once started.

17. I found about 450 men, women, and children, at work on the road between Hatta and Durgowty. This appeared to be the only spot where want had induced the people to come and work, and the look of the country round showed how the rice crops had failed. I however remarked, with regard to the returns sent in of the different classes of people employed on these relief works, that it does not follow that because the returns show that artisans and handicraftsmen seek work on the roads, that these are men who have actually left their several trades for road-making; but that though they are weavers, &c., by caste or families, many of them have never even learnt their trade, but have been from their infancy employed in agricultural labor, and are used to earthwork.

22. Near Matianee, in the 375th mile, I observed that the water from the Durgowty was still flowing into the ditches and tanks along the road-side, and was carried away over the country by artificial irrigation channels. The embankment across the river, noticed in my 7th paragraph, is near Matianee; the crops for miles on each side of the road were magnificent.

## LIBERALITY OF HIS HIGHNESS THE MAHARAJAH OF BURDWAN.

No. 896—S.R., dated Calcutta, the 21st February 1874.

From—Mr. Mackenzie, Esq., Junior Secretary to the Government of Bengal,  
To—The Commissioner of Burdwan.

I AM directed to acknowledge the receipt of your letter No. 185T, dated 15th February, reporting that the Maharajah of Burdwan has at his own cost organised a charitable relief department for his estates, with centres at Burdwan, Baulna, and Chinsurah.

2. In reply, I am to request you to convey to His Highness an expression of the Lieutenant-Governor's acknowledgment of this fresh instance of the Maharajah's liberality to the poor and suffering. The Lieutenant-Governor felt sure that he was warranted in informing the Government of India, as he did a few weeks back, that in Burdwan our having the Maharajah to rely upon was a great consolation under the present circumstances of that district. The facts reported by you have quite justified His Honor's expectations.

"An application has been received from Mr. A. L. Clay for the remission of a fine of Rs. 50, incurred under Article V (6) of the Rules, for reporting his marriage two days after the expiry of the month's grace allowed."

"Mr. Clay pleads, that had he reported his marriage, which took place in England on the 16th September, within the prescribed month, by letter, the notice would not have reached the Fund Office sooner than his report dated the 17th October last,

which was made immediately upon his arrival in India. The managers recommend this case for the favorable consideration of the meeting."

"Mr. P. R. Hogg has reported that he has obtained a divorce from his wife and has applied to subscribe at reduced rates as a widower subscriber. The managers have informed him that the date from which widower rates of subscription become payable, is the date on which the "decree nisi" is made absolute, or six months after the date of the decree."

"The managers have received a memorial from Mrs. Boldero, Mrs. Paton, and Mrs. Turner, widows of subscribers and incumbents on the Fund, praying that an increase of their respective pensions may be granted to them out of the surplus. Mrs. Boldero in 1870 sent a similar memorial, which was laid before a General Meeting, and it was resolved to inform her that the subscribers were unable to comply with the prayer of her memorial. The ladies have now been informed that the managers cannot disturb the resolution passed at the General Meeting of 1870."

"The votes of the subscribers have affirmed the resolution passed respecting the addition to Article II of the Rules of the words noted on the margin. The votes were 127 in favor of the amendment and 21 against it."

"The votes on the resolution, 'that the service concurs in the views adopted by the Secretary of State both in 1865 and 1872, as to the inapplicability of the present conditions of the Civil Fund to native covenanted civilians, and the expediency of expunging from the covenants of such civilians the engagements relating to the Civil Fund,' were—for the resolution, 128; against it, 22."

"The three native gentlemen, who were members of the service in May 1872, have been informed of their admission as subscribers to the Fund, and the managers have likewise intimated the result of the report to the Government of India in the Home Department."

"The managers, in their circular of 15th November last, stated that a reference had been made to the Actuary regarding the Fund Surplus, and Messrs. Coult & Co., the Agents of the Fund, have reported that they are now in communication with Mr. Brown regarding the valuation of its assets and liabilities."

"On the 28th August last, the managers issued a circular to the service on the subject of the disposable surplus. This circular was accompanied by two forms, in which they sought to obtain an expression of the opinion of the service at large, with reference to the benefits which the surplus should be applied to securing, and the order of priority in which those benefits should be considered."

"For the reasons set out in their subsequent circular of the 15th November, they have determined to make no motion present for the appropriation of surplus, but will move instead the following resolution:—"

"That any increase of benefits which may be declared as the result of the reference now made to the Actuary, shall have effect from the 1st April 1873."

"The accounts of the year 1872-73 are submitted."

CIVIL FUND OFFICE,  
January, 1874.

E. E.  
A. MACKENZIE,  
Secretary and Accountant.

1. It was proposed by *Mr. Field*, and seconded by *Mr. C. J. Lyall*, and carried "that the proceedings of the Managers, in respect of the admission of families to the benefits of the Fund during the past half-year, be confirmed."

2. It was proposed by *Mr. Barbour*, and seconded by *Mr. Field*, and carried "that the fine imposed upon *Mr. A. L. Clay*, be remitted."

3. It was moved by *Mr. Monro*, and seconded by *Mr. O'Kinealy*, and carried "that the reply given by the Managers to *Mesdames Boldero, Paton and Turner*, be approved."

4. It was moved by *Mr. H. L. Johnson*, seconded by *Mr. Field*, and carried "that the following gentlemen be appointed Managers for the present year:—*Messrs. Schaleh, Geoghagan, O'Kinealy, Cotton and Abbott*."

5. *Mr. Schaleh* then moved on behalf of the Managers,—“that any increase of benefits which may be declared as the result of the reference now made to the actuary have effect from the 1st April 1873.” He said, the Managers had, as they promised, yielded to the wish of the majority, as regards refraining from making any change in the benefits until the actuary's report is received, and had adopted the above resolution which would, he hoped, satisfy all parties.

*Mr. Cotton* said he rose to propose a Resolution, (which he would put as an amendment) that had been duly advertised before the publication of the Managers' Resolution:—

“That no surplus be declared or distributed, and that no scheme for increase of benefits or reduction of subscription be allowed to come into force until after reference to a professional actuary; provided that any benefits that may be distributed shall have retrospective effect from the 1st April 1873.”

It had been urged that he should withdraw his Resolution as being substantially the same as the Resolution proposed by the Managers; but if the Resolution were substantially the same, he did not, he said, see why the Managers should not accept the terms of his Resolution, as he had been the first to advertise. He regretted on principle to oppose the Managers on what might almost appear to be a matter of form, but in point of fact it was, as he would show, of importance to adhere to the exact words of his Resolution. There were other Resolutions, to follow which it was essential to read with the Resolution he was then proposing. He was aware that the Managers had already referred the fund accounts to an actuary for a valuation in October last, while the whole question was still under discussion, and he much regretted that they had done so, as he thought that all the circumstances had not been properly stated in that reference, and he could not accept that reference as final. In the Resolution just proposed by *Mr. Schaleh*, the words “the reference now made to the actuary” were used, and he could not stultify all the action he and his party had been taking by accepting a Resolution so expressed. The valuation of the Fund would, he hoped, again be referred to the actuary, and certain information and facts would then be supplied which had not been given in the reference of last October. He had already in the General Meeting held in July 1873, dwelt at length on the grounds of the Resolution he was now proposing, and he would not trouble the meeting by repeating them on this occasion.

*Mr. Dankes* seconded the amendment.

Some discussion ensued, in the course of which it was pointed out that the reference to the actuary was not final in its terms, but that he was told

“further information would be sent as to the opinions of the service” on the very subjects now under agitation. It was objected that the circulars of *Mr. Cotton's* party were not among the documents forwarded to the actuary with the Managers' letter of reference, although the Managers, in their circular issued last autumn under the Officiating Secretary *Mr. Monro's* signature, had said that they were “prepared to forward any representations on the part of members of the service, which are not inconsistent with the known circumstances of the Fund, and which are supported otherwise than by merely general assertions at variance with specific facts within the knowledge of the Managers.” To this it was replied that no request had been made that they should be forwarded, and that they had never been formally communicated to the Managers, who found them never both inaccurate and misleading. *Mr. Cotton* rejoined that he had assumed after the Managers' pledge that they would have forwarded the circulars referred to without a special request to that effect; and he pointed out that on an application from *Mr. Westland* he had formally supplied that gentleman with several copies of the second circular, when he, *Mr. Westland*, was in charge of the Fund Office.

The Secretary read the following extract from the reference to the actuary that had been made as showing that attention had been drawn to the points under discussion:—“It has been said above that the promotion in the three branches of the service (Bengal, North-Western Provinces and Punjab) is not parallel. It is right to inform the actuary that there is very considerable agitation at present among the Junior Civilians in the North-Western Provinces, who allege that their position and prospects as regards salary are considerably worse than those of their brethren in other provinces. It will be for the actuary to say, with reference to the facts, whether it would be safer to frame different subscription value tables for the different provinces, or whether it is sufficient to take one, an average one, for the whole service. In any case, the question of the valuation of future subscriptions should, both on account of the largeness of the item and on account of its complication, have the best attention of the actuary. \* \* \*

“He should advise also how much of a margin it would be safe to keep in distributing the surplus. The recent papers of the fund specified on the margin will be a guide to the actuary as to the details that are wanted in respect of this subject of reference, and further information will be sent as to the opinions of the service when they are collected.”

*Mr. Cotton* then pressed his amendment which was carried—the voting being

for it, 12 present and 154 proxies = 166  
against it, 15 “ and 71 “ = 86

6. *Mr. Verner* then moved and *Mr. Barbour* seconded a further resolution, viz:—

“That in referring to the actuary for a valuation of the fund, he be supplied with information showing in detail the grounds for apprehending a future decrease in the average gross salaries of subscribers during their term of service, and that his advice be obtained as to the surplus which should reasonably remain undistributed as a margin to ensure the solvency of the fund.”

*Mr. Verner* said—He thought that there was good reason to apprehend a decrease in the average gross salaries of subscribers during their term of service. True, a table published by the managers had shown a decrease comparatively small during the last twenty years, but the fact was that the furlough rules of 1868 in their early operation had temporarily counterbalanced the other causes at work. This disturbing element could not continue, and as it disappeared average salaries would again steadily decline. There was another important consideration. The Secretary of State had about three years ago made a concession to the service, one for which he need hardly say the rank and file of the service were deeply grateful. He alluded to the orders guaranteeing the full pension of one thirtieth a year on the completion of twenty-five years service. Experience was wanting to enable us to predict the effect of this order on the average term of service, but it might be conjectured with a fair show of reason that it would induce early retirements. The managers had remarked in one of their circulars that the fund was scarcely affected if the average term of service were reduced by a year, but he need hardly observe that this was fallacious. The effect of such an average reduction would be to leave the assets of the fund very much as they were, and to increase its liabilities considerably. He therefore thought it very necessary that the probable effect upon the fund of the boon conceded by the Secretary of State should be provided for. There were other important considerations pointing to a decrease in average salaries, but these had already been dwelt upon in the circulars signed by himself and others, and he need not repeat them.

*Mr. Schalch* moved as an amendment "that the Actuary be informed of any grounds that can be stated for apprehending a future decrease in the rate of income of subscribers during their term of service, and that his advice be obtained whether it would be equitable and expedient to reserve for such a contingency part of any surplus that may be found now to exist, and how much should be so reserved."

He said, that the amendment as drafted by the Managers differed from the Resolution mainly in drawing the attention of the Actuary to the question of the equity and expediency of reserving for such a future contingency any part of the savings effected in the past from the subscriptions of old members for the benefit of those who were to come after. It was true that future subscriptions of members were taken into account in arriving at the surplus, but the members who had borne the heavy rates of subscription for so long should get the full benefit of them. It was for the Actuary, who dealt with such questions constantly, to say what was fair in this view.

*Mr. O'Kinealy* in seconding the amendment said—

That the statements made as regards the average decrease in the subscriptions of members during the last 23 years were wholly incorrect. As a fact, the average yearly salary of each member for the whole period was 16,746 rupees, which is only 24 rupees more than the salary for 1872-73. But there was a much better example to show that we are not in a worse position than formerly. During the five years 1863-68, we accumulated about 23 lacs of rupees, and yet the average salary for that period was only 16,267 rupees, which is less by 455 rupees than the salary of last year. So far as to the diminution in the salaries of civilians. Then as to the distribution of the surplus, he thought those who had subscribed the

money should obtain the benefit of it, and these were the present members of the fund. He considered it hard that the surplus should be retained to assist future subscribers who had nothing to do with it. As regards this all present subscribers were on the same footing; but in addition to this, the proposal pressed exceedingly hard on men of about 20 years' standing in the service. They had formerly subscribed largely to make up a deficit caused by the action of their predecessors, and now they were being compelled to create a sinking fund for the benefit of future subscribers. He deemed the proposal unjust and unfair, and would vote against it.

*Mr. Cotton* said it was absurd to refer questions of equity to the Actuary, and were there no other reasons for opposing the Manager's amendment, he would not hesitate to oppose it on that ground alone.

The amendment was then put and lost, there being for it (16 present and 71 proxies=) 87 votes and against it (14 present and 154 proxies=) 168 votes.

The Resolution was carried by (14 present and 154 proxies=) 168 votes to (13 present and 71 proxies=) 84 votes.

*Mr. Abbott* then proposed and *Mr. Porter* seconded a Resolution—

"That a Committee representing all grades of the Service be appointed to assist the Managers in giving effect to the second Resolution, to consist of the following gentlemen:—

HON'BLE MR. JUSTICE JACKSON,	MR. T. W. RAWLINS,
MR. H. G. KEENE,	W. H. VERNER,
" T. B. TRACEY,	E. H. HARRISON,
" A. H. HARRINGTON,	J. S. MACKINTOSH,
	A. W. MACKIE,

with power to add to their number. This Committee he was proposing represented not only all grades of the Service, but almost all parts of India in which Members of the Service were employed; he trusted that it was thoroughly representative and as such would be accepted without opposition.

*Mr. Monro* rose to oppose the resolution. He said—

The proposal to form a committee is certainly unusual, if not almost unprecedented, and some pressing necessity must have arisen to require the adoption of such an unusual course. He wished to know whether the proposal referred to the past or the future. If it had any reference to the past, then it was practically a vote of want of confidence in, and censure of the proceedings of, the Managers of the past year. If this was so, then he said that the grounds of this want of confidence should be clearly laid before the meeting; that the Managers of the past year might have an opportunity of meeting any accusations which may be brought against them, and that the vote of want of confidence, if deserved, might be recorded by the Service.

If the proposal referred to the future, then it seemed to him unintelligible. It was practically a vote of want of confidence in Managers, who had only just been elected, who had not yet been tried, who had not yet failed in discharging any of the duties entrusted to them. It was really a declaration that the members of the Service cannot find in the Service five men whom they can trust to represent them, and it was a proposal to supplement the deficiencies of these five men whom they cannot trust, by adding to their number some more men out of the same untrusted service. He would be much surprised if any gentlemen could be found to consent to serve as managers under such conditions, and he was still more surprised to find that there were any members of the

service, who expected that they would meet with managers to take office when they were not to be trusted without a committee to serve as a sort of security or safeguard, that the Managers would do their duty. To be a Manager under such circumstances was in his opinion discreditable to the individual, but to expect to find such Managers was little short of an insult to the Service. Apart from the bearing of the question on past or future managers, the proposal to appoint an auxiliary committee seemed to him to be a declaration of want of confidence in ourselves as a service which was much to be deplored. It was practically an admission that we were not able to manage the affairs of our fund under the system of management which at present is in force, and which has all along prevailed. If this declaration of incapacity to manage our affairs should be affirmed by the vote of the meeting, then it seemed to him that the dissolution of the Civil Fund under its present system of management was not far off. And he for one would not be sorry if under such circumstances the dissolution were a speedy one, and if the management of the fund were assumed by some one who would be able to manage it without fear of votes of want of confidence, and without the assistance of auxiliary committees."

A somewhat animated discussion followed, in the course of which *Mr. Barbour* said that "he intended to support the Resolution but did not look upon it as a vote of censure on the managers or as implying any want of confidence in their desire to do what they thought best for the whole service, but it was however the fact that they were taken solely from men stationed in Calcutta and owing to the nature of the election were chosen solely by the votes of those present in meeting. The interests of the managers thus elected did not always coincide with those of officers in the mofussil and in other provinces, and were in fact in some instances directly opposed to them. It was of great importance that officers in the mofussil and of other provinces should have an opportunity of authoritatively expressing their views and on that ground he would support the Resolution." *Mr. Cotton* on the other hand stated that the gentlemen he represented did in fact not repose full confidence in the Fund management. The managers had, he thought, acted throughout on a one-sided view of the case and without regard to the interests of the majority of the service, and though offering to conform to the views of the service, were now in reality opposing them. Even on the newly elected management the majority of subscribers would still be represented by a minority of managers. *Mr. O'Kinealy* and others said that the course adopted was laying down a dangerous precedent and was meaningless, as implying distrust of the newly elected managers.

*Mr. Field* proposed and *Mr. Dampier* seconded an amendment to the following effect:—

"That the managers appointed this day be requested, if they see fit, to appoint a committee representing all grades of the service to assist them in giving effect to the foregoing Resolution."

*Mr. Field* begged to express an opinion that the appointment of a committee such as that proposed would be *ultra vires*. Article XXIII of the rules ran as follows:—"The affairs of the fund shall be conducted by nine managers, &c." There was no provision for appointing a committee which should either control or supersede or assist the managers. It was of course possible to alter this rule, but until it was altered, he thought they could not take such a course as that proposed.

Looking at the question in another point of view, it appeared to him and would probably appear to most persons that the appointment of a committee for the object mentioned in the proposition before the meeting amounted to an expression of want of confidence in the managers who had just been elected for the current year. The managers appointed under the rule just referred to, had always conducted the affairs of the fund to the satisfaction of the service at large, and he deprecated doing anything which must to outsiders have the semblance of want of confidence in the management as constituted under a set of rules which had hitherto worked satisfactorily. He thought that the course which had been pursued with respect to the real question at issue showed that the managers did not wish to set up their own views in opposition to those of a majority of the service. On the contrary they had deferred to the wishes of the service as soon as they were clearly made known to them, and no reason had been afforded so far as the present question was concerned of superseding the system of management which had been in existence for so many years. The managers just appointed numbered amongst them some of the gentlemen, who had raised the discussion which led to the propositions laid before today's meeting,—and he did not anticipate that they would act otherwise than their predecessors had done. On the contrary he believed that any representations made to them, or information supplied, would receive due consideration, and would, if desired, be incorporated into any reference to be made to the actuary. If they acted otherwise, the service were strong enough to secure attention to views held by a majority of them, and which they wished to have represented to the actuary, as in their opinion having an important bearing on the subject which he had to consider. If, however, it did seem desirable to any that a committee should be appointed, it appeared to him that the constitutional and proper way of obtaining the services of such a committee was to request the managers to appoint a committee to assist them, and therefore he begged to propose the amendment."

*Mr. L. Johnson* suggested that the Resolution might go to the meeting, as it was optional to the managers to accept the assistance offered. *Mr. Schalek* said that speaking as a manager, he was quite willing to give assistance to any committee that the subscribers might appoint, but he objected to having a committee set to work as part of the management. The managers were quite ready, if requested, to forward to the Actuary any representation that any individual member or any body of members might draw up. He objected personally to a committee in any shape as quite unnecessary, but would move as an amendment, that the proposition run simply "that a committee representing all grades of the service be appointed to give effect to the above resolution."

*Mr. Mackenzie* seconded this.

*Mr. Field's* amendment was withdrawn.

*Mr. Cotton* said he had no objection to accept *Mr. Schalek's* amendment as a compromise provided that it was understood that if that amendment were lost the original Resolution should be put, and after some conversation, it was adopted by *Mr. Cotton's* party and substituted with *Mr. Schalek's* consent for the original motion; being moved by *Mr. C. J. Lyall* and seconded by *Mr. Verner*. On being put to the vote there appeared only 7 votes present in favour of it, a number which excludes proxies, and 15 against it.

Several gentlemen protested against the result, saying the nature of the motion as put by the Chairman had not been understood, and Mr. Abbott said he should now press his original motion. Further discussion followed.

Mr. Dampier said "on looking at the names of the proposed committee, he felt that save as to one or two of them he must ask whether the proposer could for a moment profess that they had been impartially selected. He believed they were nearly all men pledged to one view of the question, and it was absurd to pretend that they were impartial assessors chosen to promote its calm and deliberate consideration. It would be much better to oblige the managers to recognise that for what they were, the chosen representatives of a number of subscribers who held one view of the surplus question. As the managers just proposed were prepared to recognise any outside committee and to deal with them as representatives of a large body of subscribers, he thought the party who pressed for their appointment should be content with that, and agree to have all this discussion cut out of the proceedings. The objections of Messrs. Monro and O'Kinealy and others would in this way be met; for veil it as you might the meaning of the Resolution as put was to appoint a committee of vigilance to watch the management."

Mr. Aitcheson said—

"He craved permission to say a single word, although he had no proposition to lay before the meeting. His earnest counsel was that the members present should avoid pressing any motion on this subject likely to create a breach in the service. In the hope that it might contribute a little to this desirable end, he would mention what happened some ten years ago in a similar case. In 1862 it was believed that there existed a considerable surplus to the credit of the fund, and proposals were brought forward by the managers for a distribution of the benefit much in the way now done. He was one of several very junior members of the service who doubted the existence of the surplus, and simply as an individual member of the service having an interest in the question, he wrote a letter to the managers setting forth his views. These views were crude and not worth much, but such as they were they received the most courteous and considerate treatment at the hands of the managers, who immediately set about the most careful examination of the whole subject. This examination resulted in the production by Mr. Monteath, then Secretary, of his well-known report which has been pronounced by professional men at home one of the most valuable papers that could be laid before an Actuary. He was sure that the managers of the present day were actuated by the same spirit as in 1862, that they would give courteous consideration to the views of any member of the service which were laid before them in a proper way; and that they would furnish to any one who asked them every possible facility for estimating the real state of the fund. There was nothing to prevent committees being formed at all the chief seats of the Local Governments for the purpose of carrying out these enquiries; and the managers, as they had been assured by Mr. Schalch, would give every possible assistance in the prosecution of them. But it was a different thing for the service by their votes officially to appoint what was really a committee of vigilance to watch over the managers in the performance of their duty. Such a measure was as unworthy of the service as it must be humiliating to the managers. He would earnestly advise that the proposal be not passed."

Mr. Field strongly urged that the meeting should rest satisfied with the assurance given them by a gentleman who was a manager for the past year, and had been re-elected for the current year. For himself he had full confidence in that assurance. He believed that the great object at the present stage of the whole question was to open a door for full and free discussion of the question in all its bearings and as it affected all, and to secure that all grades of the service should have a fair hearing for their representations. He believed that if the managers acted up to the assurance they had just heard, this would be accomplished, and he desired to see it accomplished without doing violence to the old system of management, and taking a course that must appear to outsiders as the creation of an opposition within the service itself. He stood himself between both parties, and his personal interests were fairly divided on both sides of the question. Admitting the principle, he thought the real point of difficulty would be the application of that principle, and this would depend upon the result of figures not yet made clear, and into which it was almost impossible for a number of gentlemen at a meeting like the present to enter effectually. He had not yet made up his mind as to what ought to be done when these results were fully known, but he wished that the whole question should be gone into in the light of the fullest information. It might be that the fund ought not to be regarded as an Insurance Society merely, but there must be some limit to the application of the principle of continuity. It was admitted that gentlemen now in the service had, by their contributions, filled up a deficit which had existed before their time, and in creating which they had had to share. It could be too much to ask these gentlemen to pay also for advantages to be enjoyed by those who came after them, advantages which their own subscriptions could never procure for them. Where the line was to be drawn and at what point hardship would begin to be inflicted upon any portion of the existing members of the service, were matters on which it was impossible to form an opinion until the completion of the enquiry about to be made by the actuary. He for one desired that enquiry to be as full as possible and founded on the fullest information, and that all the meeting really ought to see provided for. He believed the assurance he had already referred to, and that all that was desirable would be done by the managers first appointed; and he advised the withdrawal of the motion for a committee."

Further conversation followed,—in the course of which it appeared that it had not been ascertained that all the gentlemen nominated to the committee would consent to act. At length it was arranged that Mr. Abbott's resolution should again be put, omitting the names of the committee, and also omitting the words, "the managers" i. e., in precisely the same form as Mr. Schalch's amendment. The votes being again taken, there were for it (10 present and 154 proxies=) 164 and against it (15 present and 71 proxies=) 86.

8. Mr. O'Kinealy addressed the chair on a personal matter. He had been that day elected a manager; but with reference to the resolution just carried he would beg to resign his place as manager.

Mr. Trevor Grant was thereupon elected a manager in Mr. O'Kinealy's place.

The meeting then terminated.

Such costs and expenses, and the portion thereof to be contributed by each of the said estates, shall be ascertained and settled by the auditors, subject to the approval of the Government, and shall be paid out of the said estates accordingly by the Administrator General.

**49.** If upon any such reference and examination the auditors see reason to believe that the said schedules do not contain a true and correct account of the matters therein contained or which ought to be therein contained, or that the assets have not been duly kept and invested or deposited in the manner directed by this Act, or by any such rules and orders as aforesaid, or that the Administrator General has failed to comply with the provisions and directions of this Act or of any such rules and orders, they shall report accordingly to the Government.

**50.** The Government may refer every such report as last aforesaid to the consideration of the Advocate General for the Presidency, who shall thereupon, if he think fit, proceed summarily against the defaulter or his executor or administrator in the High Court in the Presidency town, by petition for an account, or to compel obedience to this Act or to such rules and orders as aforesaid, or otherwise as he may think fit, in respect of all or any of the estates then or formerly under the administration of such defaulter;

and the said Advocate General may exhibit interrogatories to the said Administrator General, executor or administrator (hereinafter called the defendant), who shall be bound to answer the same as fully as if a commission had been issued under the provisions of the Code of Civil Procedure for his examination upon the said interrogatories.

The Court shall have power upon any such petition to compel the attendance in Court of the defendant and any witnesses who may be thought necessary, and to examine them orally or otherwise as the said Court thinks fit, and to make and enforce such order or orders as the Court thinks just.

**51.** The costs, including those of the Advocate General and of the reference to him, if the same be directed by the Court to be paid, shall be defrayed either by the defendant or out of the estates rateably as the said Court directs; and whenever any costs are recovered from the defendant, the same shall be repaid to the estates by which they have been in the first instance contributed, and the Court may, if it think fit, order the defendant to receive his costs out of the said estates.

#### No. 1.

*Dated Calcutta, the 17th January 1874.*

THE High Court find it necessary to call the attention of the several Subordinate Criminal Courts, and of the Officers in charge of Jails, to the provisions of Act X of 1872, in respect of the submission of criminal appeals. Section 275 of the present Law enacts that "every petition of appeal shall be accompanied by a copy of the judgment or order appealed against." In cases tried by jury, a copy of the Judge's charge to the jury will take the place of the judgment or other order, and a copy of the judgment or other order, or of the Judge's charge to the jury, as the case may be, is, under Section 276 of the Code, to be furnished without delay on the application of any person affected by such sentence or order.

2. What the judgment or final order in the case shall contain is enacted in Section 464 of the Code:—"The judgment or final order shall contain the point or points for determination, the finding thereupon, and the reasons for the finding."

3. No doubt can exist as to the plain requirements of the Law in this matter. Court desire, accordingly, that the Subordinate Courts will carefully comply with the provisions of the New Code and discontinue the practice, which at present exists in India, of furnishing to the person affected, and sending up to the Appellate Court, a copy of the sentence only with the petition of appeal.

THE orders noted on the margin are hereby superseded, and the Quarterly Statements

HIGH COURT.  
ENGLISH DEPARTMENT,  
Civil.

Circular Order No. 31, dated 4th November 1870,  
paragraphs 1 to 6.

A, B, and C will henceforth be submitted by the District Judges to the High Court in the revised forms now circulated, commencing, where they have not been already adopted, with those for the 1st Quarter of 1874.

2. Statements received in other than the printed forms supplied by the Superintendent of Stationery will be returned, and the district will be dealt with as if no statements had been received.

3. Statement A will contain the total number of original suits before each of the Civil Courts in the district during the quarter. The first column marked "Class of Courts" will contain the designation of each Civil Court in the district. Column 5 intended to show suits received "by institution" will include cases received *on remand* from a higher Court, or admitted to *review*; but such cases should be noticed also in the column of remarks. It will be seen that in the other columns, the cases dealt with by transfer have been distinguished from other cases under both the general heads "Received" and "Disposed of," separate columns having been allotted to them, so that the figures in red ink prescribed by Circular Order No. 25, dated 12th August 1871, will no longer be necessary. The instructions, however, contained in Circular Order No. 28, dated 12th October 1871, as to the nature of the transfers intended will apply to the new columns.

4. Part II. With reference to explanations of the cause of delay, District Judges will be guided by Circular Orders No. 6, dated 15th February 1873, and No. 25, dated 30th December 1873.

5. Statement B. Whenever the columns showing cases received "by transfer" under each of the several classes differ from the corresponding columns for cases disposed of "by transfer," an explanation of the discrepancy should be given in the column of remarks. When a case is remanded under Section 351, Civil Procedure Code, it is to be treated as *decided* by the Appellate Court, disappearing from its original file, and should be accounted for as *disposed of by transfer*; but where an order is made under Section 354, the case ought not to be removed from the file of the Appellate Court, but shown as *pending*. When a case is received by the Appellate Court under an order of the High Court in special appeal, it will be shown as received "by transfer," and after disposal, will be shown as *disposed of* either by "review of" or "by transfer," according as it has been dealt with under Section 354 or Rs. handed to the Original Court. Red ink figures need not be given.

6. Part II. The remarks already made in connection with Part II of Statement A, Magistrate *mutatis mutandis* to Part II of Statement B.

Statement C is intended to exhibit all miscellaneous cases instituted and disposed of in various Judicial Courts in the district. All business heretofore entered in the Statements under the head of "other miscellaneous Proceedings," and which for the most part consists of reports, answers to or orders upon proceedings from other Courts, applications from Ministerial Officers, &c., must be carefully excluded, and nothing but *real* cases requiring a judicial finding and order should be entered. Proceedings under Section 45 and Section 75, Act VIII (B. C.) of 1869, for example, should not be included in Statement C.

By order of the High Court,

Offg. Registrar.

That Baboo Okhoy Coomar Sen be at once provided with five maunds of cotton and sufficient funds for the purpose.

12. To the destitute poor who are unable to work on the road relief centres be opened at once in the following places —

4. Instead of latrines, two plots of ground be set apart at a convenient distance, one for men and the other for women, in which a trench will be dug every day and filled up daily after use.

15. As potatoes are cheap, part of relief be given in potatoes.

The scale be fixed as follows, whether cooked or uncooked —

For adults  $\frac{1}{2}$  rice,  $\frac{1}{2}$  seer potatoes.

For children 3 ch.  $\frac{1}{2}$  seer potatoes.

That this be communicated to the Sub-Divisional Committee, and that two months' store of potatoes be laid in.

16. That in relief-houses tickets be issued and the recipients be kept there and be made to do such works as spinning cotton, husking paddy, or any other suitable and light labour.

17. As it is likely that children who may be left orphans will not be taken care of by friends in this time of scarcity, the police should be asked to see that they do not fall into the hands of prostitutes or habitual criminals. All such children should be sent to the poor-house at the station, where arrangements will be made for their being brought up decently until they are claimed by friends after the famine, or otherwise provided for.

18. The Bengali translation of the Government rules be distributed among members.

19. In the course of their work the committee should keep in view the ideas contained in Rule F of the above rules. The Sub-Divisional Committee's attention should also be directed to this rule.

20. That a copy of these minutes be sent to the Sub-Divisional Committee.

RIVERS THOMPSON,  
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

*The 15th June 1874.*—It is hereby notified that the provisions of Act XXXI of 1860 (relating to the manufacture, importation, and sale of arms and ammunition, and for regulating the right to keep and use the same, and to give power of disarming in certain cases) as continued in force and amended by Act VI (the Arms' Act Continuance Act), 1866, restricting (1) the possession of cannon, howitzers, and mortars; (2) the manufacture, repair, sale, or (3) importation of arms and ammunition; and (4) the carrying of arms, are in force throughout the territories subject to the control of the Lieutenant-Governor of Bengal.

2. The powers of seizure, search, and arrest in certain cases, defined in sections 20, 21, 25, and 31, Act XXXI, 1860, are still possessed by the several authorities in whom the law vests them.

The following are the revised rules laid down under the Act for the importation, transshipment, inland transport, and exportation of arms and ammunition, the grant of licenses for carrying arms, and for the manufacture and sale of arms and ammunition in Bengal :—

3. Under the provisions of sections 17 and 23 of Act XXXI of 1860, the importation, exportation, or transport of all arms of the descriptions mentioned in sections 4, 5, 6, and 25 of the aforesaid Act\* into, from, or through the territories under the Lieutenant-Governor of Bengal, is prohibited unless covered by a license or pass. The transshipment of arms, &c., at ports to which Act VI of 1873 extends is prohibited in Bengal, except under license of the Commissioner of Police, Calcutta.

\* *Viz.*, cannon, howitzers, or mortars, fire-arms, bayonets, swords, daggers, spears, spear-heads, lead, sulphur, percussion-caps, gun-powder, or other ammunition.

4. Licenses to import arms and ammunition into the Lower Provinces of Bengal by land may be granted by the Secretary to Government of India, Foreign Department, or by the Secretary to Government of Bengal, in the Judicial Department. Calcutta is the only port in the Lower Provinces where importation by sea is permitted. Persons desirous of importing arms, &c., by sea into any of the districts of Lower Bengal, must apply to the Commissioner of Police at Calcutta, who has also authority to grant licenses for importation through the Port of Calcutta into districts of British India under other local Governments and Administrations. Applications for a license to import arms must be made to the proper officer in writing, and must contain full information on the following points:—

1st.—Purpose for which required.

2nd.—Probable cost of each weapon.

3rd.—Place at which the goods will be imported.

4th.—District in which the arms and ammunition are to be used, kept, or sold.

5. The Commissioner of Police on receipt of applications in the prescribed form, is authorized to grant licenses according to form A, at his discretion, for the importation of arms and, in reasonable quantities, of ammunition. His proceedings will be subject to the general control and direction of the Government of Bengal.

6. Licenses for the importation of fire-arms will not be granted by the Commissioner of Police unless he is satisfied that the weapons are required for *bonâ fide* sporting purposes.

7. Any considerable importation of arms must need special explanation, and guarantee that their use is to be inoffensive, before a license is granted. The Commissioner of Police should not grant licenses for the importation of fire-arms in large quantities without reference to the Government of Bengal, in the Judicial Department. (*N.B.*—A fresh license must be taken out for each importation.)

8. The granting of a license must depend upon the facts of each case, or upon the general complexion of the explanations obtained. Cheap guns might be imported in moderate quantities to some wild districts, where they are wanted to keep down wild beasts or game; but in default of some such good and substantial motive for requiring a quantity of arms, the license would ordinarily be refused. Costly guns are much safer than cheap arms, for only the latter can be employed to any extent for military or aggressive purposes, while the former are nearly always used for sport. When arms are of a kind to raise suspicion that they may be possibly meant for warfare or for other illegal purposes, such as pistols, bayonets, or cheap guns, the Commissioner of Police must satisfy himself very carefully as to the object, reasons, and direction of import, before he admits them under license. He can do this by testing the references which the applicant will give, and by communicating with the Government of Bengal.

9. The Collector of Customs will not, except in the case of European gentlemen importing a reasonable quantity for their private use, deliver any arms or ammunition unless protected by a pass from the Commissioner of Police at Calcutta. When persons, other than European gentlemen, importing for their private use, desire to import fire-arms, they shall be referred to the Commissioner of Police, who, however, need not under the Act make out any license at all if the quantity of arms imported is reasonable, and if they are intended for the importer's own private use, but can pass them on.

10. A license need not be refused for all arms brought into the river, for the importation of which no previous permission was obtained. When such arms are themselves of an unobjectionable character, the Commissioner of Police may grant for them the license in form A and the Customs pass in form B together, provided he is satisfied that there is no intention to evade the rules.

11. No license or pass will be granted for rifles of a military pattern, or of patterns easily convertible into military weapons, unless the consignees produce specific orders from English gentlemen for the weapons.

12. The Collector of Customs shall be responsible for seeing that the arms imported answer to the description given in the pass; and, in case of doubt, shall detain the arms and refer the point for the orders of Government.

13. The consignee, on arrival of the arms and ammunition, must produce his license to the Commissioner of Police at Calcutta, upon which he will receive from the said officer a pass in form B for the delivery of such arms and ammunition as may be mentioned in the license.

14. If the arms and ammunition are to be transported from Calcutta to any of the districts under the Lieutenant-Governor of Bengal, the Commissioner of Police, at the time of granting the pass for delivery from the Custom House, will grant a pass in form C for the transmission of the said goods to the place to which the importation is sanctioned in the license, and he will forward a copy of the pass to the Magistrate of the district in which the said place is situated.

15. In case the arms, &c., are to be transported to districts in British India not within the Lower Provinces of Bengal, the Commissioner of Police may proceed in the same way. Before granting licenses for the transport of any considerable quantity of arms or ammunition to Assam, he must communicate with the Chief Commissioner of Assam. Before complying with applications for licenses in doubtful cases, he will make a similar reference.

16. No passes to export arms and ammunition from the Lower Provinces of Bengal, either by land or by sea, to any place out of British India, shall be granted except by the Secretary to the Government of India, in the Foreign Department. All such passes shall be granted subject, as far as may be, to the rules for the transport of arms within British India, and wherever there is a Political Agent, Cantonment Magistrate, or other British official at the place of destination, the pass shall be delivered to him within six days of the arrival there of the articles covered by it, with a view to his satisfying himself that there is no deficiency, in the same manner as a Magistrate of a British district is required to do by the Inland Transport Rules prescribed below.

17. Any person desirous of transporting any arms or ammunition of the description marginally noted into any portion of the territories under the Lieutenant-Governor of Bengal, or from one district or town in the said territories to another district or town, must apply for a pass to the Commissioner of the division, specifying the district or town into which he proposes to transport the goods.

Fire-arms, bayonets, swords, daggers, spears, spear-heads, lead, sulphur, gunpowder, or other ammunition.

18. Any person desirous of transporting any of the above-mentioned articles (except in reasonable quantities for his own private use) from Calcutta into the interior of British India beyond the territorial jurisdiction of the Government of Bengal, must apply for a pass to the Commissioner of Police.

19. When a person is desirous of transporting any such articles from any place in the Lower Provinces other than Calcutta, to any place in British India within the territories of another local Government or Administration, he must apply for a pass to the Secretary to the Government of India, in the Home Department, or to the Secretary to the Government of Bengal, or to such other officer as the Government of India may have authorized by notification to grant such a pass.

20. The application must in all these cases be in writing; it must specify the town, station, or other place into which the articles are intended to be transported, and must contain full information as to the quantity, quality, and description of the articles, and the purpose for which they are respectively designed. When the articles have been imported from abroad, the license under which they have been imported must be appended.

21. It will be within the discretion of the authorized officer to grant the pass if, from the information thus given and otherwise obtained, he considers that such pass may be safely granted. A register shall be kept of all passes so granted, and a copy of each pass shall be sent to the Magistrate of the district within which the place to which the articles are to be transported is situated.

22. The articles covered by such pass shall be taken direct to the place of destination mentioned in the pass without being sold or made use of at any intermediate place.

23. On the articles reaching their destination, the person in charge thereof must deliver the pass to the office of the Magistrate of the district within six days. It will be the duty of that officer to satisfy himself that the articles transported correspond with the entries in the pass, and to see that any deficiency that may exist is satisfactorily accounted for. The pass shall then be endorsed and returned to the holder, if he may lawfully keep in his possession the articles of which it covers the transport.

24. The following fees are to be charged for the issue of licenses and passes under the foregoing rules :—

For each license in form A for permission to import arms and ammunition	Rs. 5
For each pass in form B for the delivery of arms and ammunition from the Custom House	1
For each transport pass in form C	5

The foregoing rules do not apply to arms and ammunition imported or transported by any person in small quantities for his own private use, but a license or pass may be granted for such arms or ammunition at the discretion of the officer to whom the application is preferred.

25. Section 32 of Act XXXI of 1860, prohibiting absolutely the possession of any arms or ammunition without a license, is not now in force in any district of Bengal, inasmuch as no district is at present disarmed under that section.

26. In districts and places not brought under the provisions of section 32, persons are not absolutely prohibited from carrying arms without a license, but any person not being exempted under the provisions of section 27 from so carrying arms is liable to be disarmed by any Magistrate or police officer under section 26, if, in the judgment of such Magistrate or police officer, it is dangerous to the public peace to allow such persons to go armed or to carry arms.

27. In the districts noted in the margin the Government has not insisted on the people taking out licenses to own or carry arms. In these districts the local officers will refrain from enforcing section 26 of Act XXXI of 1860, except in special cases, in which there is really ground for believing that such a measure is necessary for the preservation of the public peace.

28. In the districts noted in the margin, the Magistrates are bound to insist on licenses being taken out before arms are carried. They must observe, however, that they are not authorized to interfere with the mere possession of arms, if the possessor does not carry them or go armed. The license must be in form D, annexed.

29. Any person in the districts named in Rule 28 who has not been exempted under section 27, and who is desirous of obtaining a license to carry arms, shall make an application in writing to the Magistrate in charge of the district or sub-division in which he may be residing. The application must be on an 8-anna stamp, and contain the following particulars :—

- (1) Name and address of applicant.
- (2) Period for which the license is required (in no case to extend one year from date).
- (3) For what purpose the arms are required, and the place where the applicant proposes to reside during the currency of the license.
- (4) Description of arms for which a license is sought.
- (5) Whether the arms are to be carried only by the applicant or by his followers; if the latter, the number and description of arms to be carried by each follower.

30. Some of the districts named in Rule 28 being situated on the frontier, the unrestricted right of possessing and carrying arms would afford facilities for selling them to the hostile tribes on the border, out of whose hands it is of the greatest importance that arms and ammunition should be kept. In the other districts specified the people are turbulent and prone to engage in affrays and riots, and it is necessary, for this reason, to put a check on the possession of arms by them.

31. The license given should be renewed year by year. The registration of these licenses will enable each Magistrate to ascertain the number of arms kept by the people in his jurisdiction.

32. Licenses to carry arms on a journey may be given to *bonâ fide* travellers in form E by the Magistrate of the district or sub-division (and in Calcutta by the Commissioner of Police), provided that, save for special reasons, no such license shall be current for more than a fortnight beyond the time required for the ordinary course of post between the place at which the license is granted and that to which the applicant is travelling.

33. The Magistrates should use caution in the issue of licenses to carry arms on a journey, and give them only if satisfied on inquiry, that they can be safely granted. A register must be kept of all passes so granted, and a copy of such pass shall be sent to the Magistrate of the district to which the traveller is proceeding, in order that he may insist upon a license being taken out there.

34. As to the manufacture and sale of arms, Magistrates have under the Act complete power to grant licenses and recall them, and can therefore executively impose any condition they desire, because, if the condition is not fulfilled, the Magistrate rescinds the license at the end of the year. In this way, a limit can be placed upon the quantity of arms and ammunition which a manufacturer might under license turn out; but it will be necessary for the police to keep themselves well informed as to his actual stock, and to take means for testing the correctness of the stock-book entries.

35. Licenses to sell arms are, in the districts of Purneah, Dinagepore, Rungpore, Tipperah, Chittagong, Dacca, Backergunge, Mymensingh, Sylhet, and the Cooch Behar Division, only to be given to those persons to whom a license to transport arms, &c., would be given by the Commissioner under Rule 18. Such licenses will be very charily given in those districts after reference to the Commissioner of the division, and nowhere save at sudder stations. The fee for a license to sell arms is ten rupees.

36. Under sections 14 and 15 of the Act the Lieutenant-Governor has authorized District and Assistant Superintendents of Police to enter the premises of persons licensed to manufacture or deal in arms and ammunition, and to inspect the books kept by them in the course of their trade. The proper maintenance and inspection of these books, which are essential at all times to effective control over the traffic in arms, have become very much more important now that the checks on importation are likely to stimulate home manufacture.

37. As manufacturers cannot sell without their customers bringing themselves under the rules of inland transport in the process of taking away their purchases, Magistrates have a further means of controlling their trade.

38. The licenses of all dealers in arms, &c., must contain a stipulation that they will abide by the rules above laid down, under penalty of forfeiting their license. They must also undertake to enter in their books, besides the purchaser's name, the name of his father (for native purchasers), his place of residence, and the police-station within the jurisdiction of which he resides. Licenses granted under section 7 of the Act to sell arms should bear a note drawing attention to the necessity of the dealer's procuring also an import or transit pass, or both, before he can import or transport arms for sale. The licenses of dealers in Calcutta should contain a stipulation that they will sell to dealers residing out of Calcutta only when they produce a pass in form C from the Commissioner of the division where they reside, and that they will enter in their registers the particulars of each such pass.

### HIGH COURT NOTICES.

Orders by the High Court of Judicature at Fort William in Bengal.

#### NOTIFICATION.

##### LEAVE OF ABSENCE.

*The 8th July 1874*.—Baboo Tarini Churn Mookerjee, Moonsif of Jahanabad, in the district of East Burdwan, is allowed leave of absence for one month on medical certificate, under Section 3, Supplement F, of the Civil Leave Code.

By order, &c.,  
H. J. S. COTTON, Offg. Registrar.

Circular Orders and Memos. by the High Court of Judicature at Fort William in Bengal.

No. 1655.

Dated Calcutta, the 17th June 1874.

From—H. J. S. COTTON, Esq., Offg. Registrar of the High Court of Judicature at Fort William in Bengal.

To—The Judge of 24-Pergunnahs.

I AM directed to acknowledge the receipt of your letter No. 442, dated 12th May 1874, applying for certain information in connection with Circular Order No. 12, dated 27th March 1874, on the subject of sheriff's fees.

HIGH COURT.  
ENGLISH DEPARTMENT  
Civil.

2. In reply, I am to explain that "an ordinary return" is a return of service made under Section 49 of Act VIII of 1859. "A special return" is a return of service made otherwise than under that section. "A citation, or summons to appear," is a process issued by the Civil Courts in this country in the exercise of their testamentary and intestate jurisdiction.

3. The only processes issued by the High Court in its original jurisdiction which the sheriff's officers are required to serve or execute, are those specified in the scale of fees which accompanied the Court's Circular Order above alluded to, *vis.* :—

- (1.) Summons to a defendant to appear and answer.
- (2.) Citation.
- (3.) Execution (this includes prohibitory orders).

4. In reply to your third paragraph, I am to point out that the inconvenience of which you complain from not knowing what fee will be required before the return is received may be obviated by your sending with the process the maximum amount of fees chargeable by the sheriff and his officers under respective table of fees. The sheriff will account to you for whatever excess may be thus entrusted to him.

5. The Court direct me to add for your information that, as a rule, processes are served in the case of a European by a European bailiff, and in the case of a Native by a Native bailiff. A Native bailiff is never employed when the person to be served or arrested is a European; a European bailiff may, however, at the request of the suitor, be employed when the person to be served or arrested is a Native. This practice should always be remembered when receiving an application for the service of process, as it bears upon the amount of fees to be sent for the service of process by the sheriff.

2. In reply, I am to say that your view of the case is correct. The Government notification dated 30th June 1864, and published at page 1462 of the *Calcutta Gazette* of the 27th July 1864, notified under Section 196 of the old Code of Criminal Procedure (Act XXV of 1861) "that in every district of the Lower Provinces the evidence of witnesses shall be taken down by the Magistrate with his own hand and in his own vernacular language, unless he be prevented by any sufficient reason from taking down the evidence of any witness, in which case he shall record the reason of his inability to do so and shall cause the evidence to be taken down in writing from his dictation in open Court." It was also notified "that if the vernacular language of any Magistrate be neither English nor the language of the district in which his Court is held, he may take down the evidence in English, or in the language of the district, instead of in his own vernacular."

3. Section 335 of the new Code of Criminal Procedure (Act X of 1872) reproduces Section 196 of the old Code, and under the concluding paragraph of Section 2 of the new Code, the Government Notification of the 30th June 1864 is as much in force as if it had been published and made under Section 335 of that Code.

4. Notwithstanding anything contained in Judge's power to allow appeals. Judge who personally made any decree or order, may, if he think fit, on the application of any of the parties to the suit allow an appeal therefrom to the Court to which an appeal would lie under section eleven.

5. Whenever a Judge allows an appeal under section four, he shall state in writing his reasons for so doing, and such statement shall form part of the record.

6. Notwithstanding anything contained in section two or section three, the Court to which an appeal would lie if it were not for the prohibitions contained in those sections may, if it think fit, on the application of any of the parties to the suit allow an appeal to itself

(c) from appellate decrees and orders of Subordinate Judges to the High Court, and

(d) from all decrees and orders of District Judges and Additional Judges, to the High Court.

12. Except as hereinbefore otherwise provided, all appeals allowed under this Act shall be subject to the rules relating to appeals contained in the Code of Civil Procedure and by the Indian Limitation Act, 1871: provided that the time when the period of limitation prescribed for presenting an appeal begins to run shall be the date of the order allowing the appeal instead of the date of the decree or order appealed against.

13. Any Subordinate Additional or District Judge to whom an application is made under section four, may, in lieu of allowing an appeal as hereinbefore provided, state a case or any point of law or question of fact arising in the suit, and refer the statement, with his own opinion thereon, for the consideration of the High Court.

The High Court, as the case may be, shall have power to hear and determine any case or point so stated, and shall fix an early day for such hearing and cause notice of such day to be placed in the Court house.

The parties to the suit may appear and be heard in person or by pleader in the High Court.

When the case has been heard and determined, the High Court shall send a copy of its judgment under the seal of the Court to the Court by which the statement was made, and such Court shall, on receipt of the copy, dispose of the case conformably to the decision of the Court referred to.

The costs, if any, consequent on any such reference shall be costs in the suit.

When a case is referred under this section the Court referred to may alter, cancel or set aside any order or decree which the Court making the reference may have made in the suit, and may make such order as the justice of the case may require.

14. This Act does not apply—

(a) to appeals from any decree or order by the High Court or any Judge thereof;

(b) to any appeals presented before the passing of this Act.

Act not to apply to appeals from decrees of Judges of High Court.

## STATEMENT OF OBJECTS AND REASONS.

The Government of India have under consideration the question of revising the existing system of appeal in the Courts of Civil Judicature. It is generally agreed not only that the law relating to appeals is in an unsatisfactory state, but that it is, in Bengal at least, producing mischief which calls for speedy remedy. The Code of Civil Procedure is under revision, and in some important respects it would be desirable to handle the whole subject at once. But a work of such magnitude cannot receive its due amount of preparation, external criticism, discussion and revision, under two years at least, and it is likely to take a longer time. Therefore on the whole, it will be found convenient to deal separately with such a subject as the present, which can be isolated from other procedure without much legal difficulty, and which demands more prompt treatment.

2. The system of appeal, briefly stated, is as follows :—

Every Court of original jurisdiction is subject to an appeal on the whole case to a Court above it. The appeal is heard on the record of the case in the original Court, unless the Appellate Court requires more evidence. There is no second appeal on the whole case; but if the High Court is not itself the immediate Court of Appeal, a partial appeal confined to points of law may be presented to that Court. On this partial appeal the Court cannot itself alter any finding of the facts by the Court immediately below it. However clear it may be that the lower Court has erred, if the error is confined to mere treatment of facts, the higher Court is bound by the conclusions. If, however, it can trace the error to some erroneous legal principle, it may remand the case for a re-hearing, and this, it appears, is very frequently done.

3. The evils now complained of, at least in Bengal, are three :—*firstly*, the extremely unsatisfactory effect of partial appeals; *secondly*, the vast number of appeals which reach the High Court and consume the time of the Judges; and *thirdly*, the great and disproportionate expense to the public caused by appeals for very trifling sums of money.

4. A recent memorandum by Sir Richard Couch deals with the two former of these evils. He states that the decisions of the Munsifs are heard in appeal under great disadvantages, one of which obviously is that the Appellate Judge is not placed in contact with the witnesses. And yet he may reverse the Munsif's finding, while his own finding on the facts is absolutely irreversible except in the rare instances in which the case goes to the Privy Council. The results are, *firstly*, that a number of partial appeals are presented ostensibly on points of law, but really for the purpose of convincing the High Court that there has been a miscarriage of justice in the treatment of the facts; *secondly*, that the High Court Judges are placed under sore temptation to strain and refine on the law, in order to do justice in the particular case; *thirdly*, that they can only interfere with the finding of facts by the circuitous and uncertain process of a remand; and *fourthly*, they frequently find the rules of law too strong for them, and they and the parties who prevailed before the Munsif have the dissatisfaction of believing the Munsif to have been quite right, and that his judgment was erroneously reversed, while yet they find it impossible to restore the first decree.

5. The remedy proposed by the present Bill is as follows :—

To prohibit appeals (a) where the subject-matter is less than twenty rupees and the suit is one of the Small Cause type, (b) where the decree has been made by consent, or the parties have agreed not to appeal, and (c) where it relates to costs only which are left to the discretion of the Court.

To prohibit second appeals (a) where the subject-matter is less than two hundred rupees, or (b) where the first Court of appeal agrees with the Court of first instance.

These prohibitions may, however, be dispensed with in the following cases :—

(a.) By the Court that makes the decree, whenever it thinks fit.

(b.) By the Court above, where it is impossible to estimate the subject-matter at a money-value, or where any question raised in the suit is of such importance to the public as to render a second appeal expedient or where an appeal is necessary for the purposes of justice.

Power is given to the first Court of appeal to state a case instead of allowing a second appeal.
